

Duddugunta Moulendra Reddy

PERSONAL DETAILS:

Current Location - Nellore
Date of Birth - November 24, 2005
Gender - Male

CONTACT DETAILS:

Mobile: +91-81069 64421
Email: moulendramoulireddy@gmail.com
Github: <https://github.com/moulendra143>
LinkedIn: <https://www.linkedin.com/in/moulendra-reddy-1b2966335/>

SKILLS:

- **Programming & Core Concepts**
 - Java
 - Data Structures and Algorithms
- **Web Development**
 - HTML
 - CSS
 - Bootstrap
 - React.js
- **Backend & Database**
 - Spring Boot
 - MySQL

SOFT SKILLS:

- Team Management
- Communication
- Collaboration
- Organizational Skills

LANGUAGES KNOWN:

- English
- Telugu

CERTIFICATIONS:

- Oracle Cloud Infrastructure AI Associate
- Cisco Networking Academy Certification
- Infosys Springboard Internship Certification
- Cyber Job Simulation by Deloitte.

AWARDS & ACHIEVEMENTS:

- Ranked 1st in Diploma (Academic Excellence)
- Earned Google Cloud skill badges
- Completed Oracle Run Program
- Built 3 projects in Full Stack and AI/ML

TECHNICAL TOOLS:

- Git & GitHub
- Docker
- REST APIs
- Google Cloud Platform

OBJECTIVE:

- Aspiring Java Full-Stack Developer with experience in building scalable applications using Spring Boot, React, and MySQL, along with exposure to AI/ML and cloud technologies. Seeking to contribute technical expertise and problem-solving skills to build impactful software solutions in a top-tier technology organization.

EDUCATION:

N.B.K.R INSTITUTE OF SCIENCE AND TECHNOLOGY	2024 - 2027
Bachelors of Technology in Computer Science and Engineering	CGPA: 9.1/10
GOVT POLYTECHNIC PILLARIPATTU	2021 - 2024
Diploma (Class XII)	Percentage:9.2/10
S.V.R HIGH SCHOOL	2020 - 2021
Secondary School (Class X)	Percentage:9.6/10

INTERNSHIPS:

Infosys Springboard | September 2025 - November 2025

- **Full Stack Development Intern**
- Developed backend modules using Java (OOP), SQL, and REST APIs to support scalable service development.
- Applied debugging and clean code practices to improve request handling efficiency.

InternPro — AI/ML Intern | JULY 2025 - AUGUST 2025

- **AI/ML Intern**
- Trained machine learning models & optimized data to improve prediction performance.
- Integrated ONNX runtime inference and applied hyperparameter tuning to enhance model accuracy.

Aaviza Electronics | November 2023 - May 2024

- **Hardware Intern**
- Performed PCB wiring, soldering, testing, and assembly for electronic modules during production cycles.
- Led a 6-member execution team to streamline manufacturing workflows and improve delivery efficiency.

PROJECTS:

Early Disease Detection of Breast Cancer and Diabetes | September 2025 - October 2025

 https://github.com/moulendra143/Greviances_Management

- Tech Stack: React.js | Java | ONNX Models
- Developed a medical diagnosis system using ONNX-based inference models and Java APIs for instant prediction.
- Built a lightweight and accessible screening tool for clinical decision support

Civic Pulse Hub — Smart City Grievance Management System | September 2025 - November 2025

 https://github.com/moulendra143/disease_detection

- Tech Stack: React.js | Spring Boot | MySQL
- Built a scalable full-stack grievance portal with 100+ citizen complaint submissions
- Implemented real-time status tracking and secure role-based dashboards to improve issue-resolution transparency and workflow automation.
