Objective

Aspiring Full Stack Java Developer and AI/ML Engineer with hands-on experience in backend development, machine learning, cloud deployment, and scalable web applications. Interested in building intelligent and real-world software solutions using Java, Spring Boot, React, AI/ML, and cloud technologies.

Education

N.B.K.R Institute of Science and Technology	2024–2027
B.Tech CSE (CGPA: 9.1/10)	
Govt Polytechnic Pillaripattu	2021–2024
Diploma (9.2/10)	
S.V.R High School	2020–2021
Class X (9.6/10)	

Experience

Infosys Springboard	Sep 2025–Nov 2025	Proof
Full Stack Intern		
- Built backend modules using Java, SQL, and REST APIs - Improved request handling efficiency by 30% through debugging - Collaborated to integrate React frontend components		
InternPro	Jul 2025–Aug 2025	Proof
AI/ML Intern		
- Built and trained machine learning models using Python and Scikit-learn - Performed data preprocessing and feature engineering - Deployed models using ONNX runtime for scalable inference		
Aaviza Electronics	Nov 2023–May 2024	Proof
Hardware Intern		
- Performed PCB wiring, testing, and assembly - Led a team of 4 improving efficiency by 20% - Reduced testing time through systematic troubleshooting		

Projects

Grievance Management System	GitHub
- Developed grievance management platform using Java, Spring Boot, REST APIs, and MySQL - Implemented complaint tracking and secure authentication system - Improved workflow efficiency through optimized backend operations	
Atlas (Reinforcement Learning CEO Agent)	GitHub
- Designed a reinforcement learning agent simulating a CEO managing a company over a 90-day decision cycle - Modeled business environment with states, rewards, and actions to optimize long-term strategy - Implemented policy learning to improve decision-making across operations, finance, and growth scenarios	
Gym Management System	GitHub
- Developed full stack gym management application using React, Spring Boot, and MySQL - Managed member registration, subscriptions, and payment tracking - Integrated frontend and backend services for smooth user experience	

Technical Skills

Programming: Java, Python, SQL, HTML, CSS, JavaScript
Frameworks: Spring Boot, React.js, Bootstrap, Hibernate
Tools: Git, Docker, REST APIs, GCP, AWS, Amazon EC2, MySQL, ONNX
Concepts: DSA, OOPs, SDLC, Agile, Machine Learning, Reinforcement Learning

Additional Information

Certifications Proof
OCI AI Associate, Cisco Networking, Infosys, Deloitte Simulation, Oracle Cloud.
Achievements: Ranked 1st in Diploma, 5+ Google Cloud badges, deployed portfolio on Amazon EC2, 3+ major projects.
Soft Skills: Leadership, Problem-solving, Communication, Adaptability, Decision Making.
Languages: English (Professional), Telugu (Native).
